Lingua hebree

Hebreo (in Hebreo עִבְרִית o עברית, *'Ivrit*) es un lingua semitic del familia african-asiatic parlate per plus de septe million personas in Israel et in communitates judee in tote le mundo. In Israel, illo es le linguage "de facto" del stato et le gente, como illo es anque un del duo linguages official cum le lingua arabe, et illo es parlate per le majoritate del population.

Le nucleo del Tanakh (le Biblia hebree) es scripte in hebreo classic.

Le lingua hebree moderne es basate de lingua hebree classic, sed es in un gran parte un lingua construite, proque ante le seculo 19 e 20, esseva solmente un lingua liturgical, no un lingua vivante ante le resurection.
